Recently, SDGs*3 and disposal loss from unsold goods have drawn considerable attention. The annual value of the disposal reaches 22 trillion yen in Japan and 100 trillion yen worldwide. To stand up to resolve this challenge, the Aucfan Group redefined itself as a “RE-INFRA COMPANY.” “RE” indicates reviewing, redesigning, and reorganizing what people already have for improvement. Connecting and integrating different “RE” services to redistribute product/human value best, the group strive to solve the social issue caused by disposal loss.

The Number of the Aucfan Group's Registered Business Users

Starting from aucfan.com, a price comparison online media, the Aucfan Group has developed various services: NETSEA, a B2B wholesale platform, TATEMPO GUIDE, a centralized tool to operate online shops efficiently, and Otameshi, an e-commerce site accepting donations. Now, the Aucfan Group is accelerating the business overseas.

The transaction data accumulated since establishment and AI-powered technology visualizes inventory market value. Based on the collected insight, the Aucfan Group has developed a prediction model that optimizes selling price and sales channels. This model enables the group to roll out total e-commerce support solutions mainly for SMEs, independent business proprietors, and side jobs in retail and distribution fields.
